# Gouweleeuw: The paint shop for vertical transport

In recent months there have been several large machines in our paint shop. In the months of March and April, for example, we spent 20 working days painting a Demag CC 8800-1 (see photo report on the right). By order of the factory, the crane was delivered to us in the factory primer and we painted it in the desired colours for the end user.

There are also great assignments ahead for the coming months. We will paint a large number of cranes for the Liebherr, Tadano Faun and Tadano Demag factories. In addition, various painting orders from crane companies are also planned for this quarter.

Are you also interested in having your equipment sprayed? Please let us know. We would like to meet you without obligation to see what we can do for you!

Companies we spray for include:

**LIEBHERR**

**TADANO**

**Manitowoc**

**DEMAG**  
TADANO GROUP

**KOBELCO**

**SPIERINGS**  
MOBILE CRANES

**We spray cranes > 1000 ton, including:**

✓ Mobile cranes ✓ Crawler cranes ✓ Tower cranes

**In addition, we spray:**

✓ Aerial platforms ✓ Telehandlers ✓ Trucks

## Tadano ATF 70-4

### Fricke-Schmidbauer

For over 30 years we have been leaders in our industry. As a result, we have been able to supply our customers with many painted machines in recent years that find their way all over the world! Below you can see one of our recent projects:

#### Fricke-Schmidbauer about Gouweleeuw

'We needed a 70-tonne crane at short notice for our new facility in Hamburg. Tadano Faun GmbH was able to help us quickly with a young used vehicle.

We have entrusted Gouweleeuw with the task of painting the crane in our corporate colours. From the first contact to the delivery of the finished crane, we always felt that we were in good hands. Our used crane is indistinguishable from new.

Thanks to the Gouweleeuw team!'

## Transport service

If desired, we can take care of transport of the crane. We arrange international transport as well as transport from the port for you. For example, for the Allelys Group (England) we collected the crane from the harbour and upon delivery we have put it back on the ferry to England. Would you like to know more about our transport service? Please contact us to discuss the options.
