Gouweleeuw: The paint shop for vertical transport

The video of the work process of G. O'Brien's crane will soon be available on our social media channels and website!

A first: our first Irish customers!

We are very pleased to see that more and more companies find us to have their equipment painted. For example, we welcomed our first Irish customers in the past quarter! We painted the Tadano ATF 400G-6 for G. O'Brien Crane Hire Ltd. in their corporate colours. On delivery, the crane was put back on the boat to Ireland.

'The ATF 400G-6 was in good condition, but because we bought it second-hand, we wanted to have the crane painted in our own company colours. When looking for a paint shop, it was important to us that they would be able to handle large and heavy cranes and would have good logistics and storage. Other crane companies have advised us to go to Gouweleeuw. It was great that there was time to paint our crane and all the parts in one go. We are very satisfied with the end result and would definitely recommend others to have their equipment painted at Gouweleeuw.'

- G. O'Brien, Director of G. O'Brien Crane Hire Ltd.

We recently held our Open Door Day - and what a successful day it was! Many interested parties have been able to take a look at our production halls and have seen how we paint cranes and other heavy equipment. Were you unable to attend? Watch the after-movie of the open day on our social media channels!

With regard to the painting of cranes, we have great projects planned for the months to come. For example, we will be painting a Liebherr LTM 1750-9 and a Demag CC 3800. Furthermore, winter is just around the corner, which means that a lot of equipment generally makes fewer machine hours. That is why the winter months are extremely suitable for painting heavy equipment.

So be there in time if you want to have your crane painted this winter! You can now request a quotation easily and without obligation on our website via the page: www.gouweleeuw.com/en/request-quote/. You will receive a quotation from us within a week on average.

Companies we spray for include:

LIEBHERR

TADANO

Manitowoc

DEMAG
TADANO GROUP

KOBELCO

SPIERINGS
MOBILE CRANES

We spray cranes > 1000 ton, including:

✓ Mobile cranes ✓ Crawler cranes ✓ Tower cranes

In addition, we spray:

✓ Aerial platforms ✓ Telehandlers ✓ Trucks

Highlighted project: Demag AC 500-8 Jade Weser Lift Voth

For over 30 years we have been leaders in our industry. As a result, we have been able to supply our customers with many painted machines in recent years that find their way all over the world! Below you can see one of our recent projects:

The video of the work process of Jade Weser Lift Voth is available on our social media channels and website!

Jade Weser Lift Voth about Gouweleeuw

'We would like to thank Gouweleeuw once again for the professional paint job they have done. The crane now has an even better coating than when it came from the factory! All deadlines were met, so we could go straight to a construction site. The co-operation with your company was and is excellent. We were kept informed at all times about the progress of the work. We will definitely come back to you with future projects. My son had tears of joy in his eyes when he saw the spray painted crane!

To a fruitful further cooperation!'

Transport service

If desired, we can take care of transport of the crane. We arrange international transport as well as transport from the port for you. For example, for the Allelys Group (England) we collected the crane from the harbour and upon delivery we have put it back on the ferry to England. Would you like to know more about our transport service? Please contact us to discuss the options.
