Gouweleeuw: The paint shop for vertical transport

On the back of this newsletter we share the process and the end result of the Demag CC 8800-1 that was recently spray painted in our paint shop. Of course we didn't stand still after that: the next Demag CC 8800-1 is almost ready! By means of this newsletter we inform you about the latest news and the most recent projects at Gouweleeuw.

Enjoy reading!

Are you interested in having machines painted? Don't hesitate to contact us! You can easily reach us via our website or by phone. You can also request a quote quickly and without obligation via www.gouweleeuw.com/en/request-quote/.

CRANES.SERVICES

We spray cranes > 1000 ton, including:

- ✔ Mobile cranes
- ✔ Crawler cranes
- ✔ Tower cranes

In addition, we spray:

- ✔ Aerial platforms
- ✔ Telehandlers
- ✔ Trucks

Nordic Crane about Gouweleeuw

Commissioned by Tadano, we spray painted the base machine of the CC 38.650-1 in the striking Nordic Crane corporate colours. Nordic Crane was very satisfied with our services. They commented: 'They are experienced craftsmen'. They were also very pleased with our method of masking the crawler crane before painting. After delivery, the crane could start its first job: lifting two impressive bridges in Oslo (Norway) with a length of 54 meters, a width of 7 meters and a weight of 135 tonnes each. A nice first lifting job!

Vertikal Days 2023

On Wednesday 10 May and Thursday 11 May we were present at the Vertikal Days in Peterborough (GB) with our own exhibition stand. We proudly look back on 2 very successful days. We met many new people and had interesting conversations. We were also very impressed by all the beautiful stands of other exhibitors.

Next year we will of course be present again at the Vertikal Days!

Highlighted project: Demag CC8800-1

We have been a leader in our industry for more than 30 years. As a result, we have been able to paint many machines for clients from all over the world in recent years! Below you can see one of our recent projects:

The process video of the Demag CC 8800-1 can be seen on our social media channels and website!

We recently spray painted a Demag CC 8800-1 by order of Tadano Demag. This impressive job shows once again that no job is too big or too heavy for us. The painted crane consists of the following parts: the operating container (29 tonnes), 4 tracks (180 tonnes), 2 undercarriages counterweight frames (87 tonnes), more than 300 meters of boom parts (10 tonnes each) and 112 pieces of counterweight (10 tonnes each).

The pictures give an impression of our work.

Transport service

If desired, we can take care of the transport of the crane. We arrange both international transport and transport from the port for you. For example, for G. O'Brien Crane Hire Ltd. (Ireland) we arranged pick-up of their LTM 1230-5 from the port of Rotterdam and we put the crane back on the boat to Ireland upon delivery. Would you like to know more about our transport service? Please do not hesitate to contact us!
