Gouweleeuw: The paint shop for vertical transport

Various cranes have been painted at Gouweleeuw recently, including the Sany SCE600TB. You will find more details about this project on the back of this newsletter. We are also currently working on a large assignment for Van Staveren B.V. We will soon share a process video of this project. With this newsletter we inform you about recent developments, special projects and new collaborations at Gouweleeuw.

Enjoy reading!

Are you interested in having machines painted? Don't hesitate to contact us! You can easily reach us via our website or by phone. You can also request a quote quickly and without obligation via www.gouweleeuw.com/en/request-quote/.

CRANES. SERVICES

We spray cranes > 1000 ton, including:

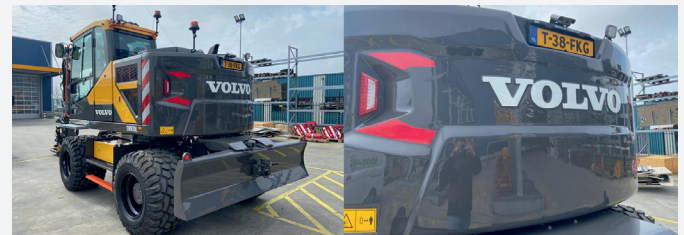

- ✔ Mobile cranes
- ✔ Crawler cranes
- ✔ Tower cranes

In addition, we spray:

- ✔ Aerial platforms
- ✔ Telehandlers
- ✔ Trucks

Cooperation of Gouweleeuw and SMT Netherlands

We recently started painting work for SMT Netherlands, the Dutch importer of Volvo, Sennebogen and Holms. We paint the machines in the desired customer colours or in the original colours with a clear coat of paint as an extra finish. In the pictures you see a Volvo excavator in Volvo's original colours with a clear coat of paint. The clear lacquer layer ensures longer retention of the colour and gives a shiny result. We are pleased to be able to carry out the painting work for SMT Nederland and look forward to all the machines that we will paint for them in the future.

Cooperation of Gouweleeuw and Hoeflon

This year we also started cooperation with Hoeflon. This company specialises in the production of mini cranes, the parts of which are painted at our facility. For this cooperation, we have designed special racks in which the parts are hung and transported during the entire painting process. This innovative approach ensures an efficient and seamless painting process. We have made a video of the painting process of the parts for Hoeflon's mini cranes. This video can be viewed on our social media channels.

Highlighted project: Sany SCE600TB

We have been a leader in our industry for more than 30 years. As a result, we have been able to paint many machines for clients from all over the world in recent years! Below you can see one of our recent projects:

The process video of the Sany SCE600TB can be seen on our social media channels and website!

Thanks to our long-term and successful cooperation with UCM Holland, we have been able to provide countless Sany cranes with a new layer of paint in our paint shop. This pleasant cooperation has now lasted for more than twenty years. A recent example of our work concerns the Sany SCE600TB, an impressive 60-ton telescopic crane that we painted in the company colours of P&K Kraanbedrijf en Transportservice B.V.

The pictures give an impression of our work.

Transport service

If desired, we can take care of the transport of the crane. We arrange both international transport and transport from the port for you. For example, for G. O'Brien Crane Hire Ltd. (Ireland) we arranged pick-up of their LTM 1230-5 from the port of Rotterdam and we put the crane back on the boat to Ireland upon delivery. Would you like to know more about our transport service? Please do not hesitate to contact us!
