# Gouweleeuw: The paint shop for vertical transport

The year 2024 has started and we have many beautiful machines planned for this year that need a new spray layer, owned by clients from all over the world. Through this newsletter we inform you about recent developments and special projects at Gouweleeuw.

Enjoy reading!

## In addition, we spray:

- ✔ Aerial platforms
- ✔ Telehandlers
- ✔ Trucks

## A second life for a Liebherr LTM 1150-6

We recently restored this Liebherr LTM 1150-6 for our Belgian client De Ceuster. Our professionals first completely disassembled the crane and then thoroughly removed all dirt and deposits in the washing area. The crane was then sanded and repainted. This powerhouse was unrecognizable when it left our workshop. De Ceuster's satisfaction speaks for itself: 'Gouweleeuw was our partner for the facelift of our new telescopic crane "Liftie 2.0" – and did they turn it into a gem! They immediately understood where we wanted to go and did it with gusto! Team De Ceuster is already proud of its new star!'

## Van Staveren B.V. about Gouweleeuw

Commissioned by Van Staveren B.V. we spray painted their entire fleet in their new corporate colours. We are of course very pleased that Van Staveren B.V. is so satisfied with our services; they say: 'Last year we had our tankers repainted at Gouweleeuw and we are extremely satisfied with the entire process. Their professionalism, dedication and craftsmanship ensured a flawless process. The result is astonishing and gives energy! Thank you to the Gouweleeuw team for their work and commitment to beautifying our fleet. We look forward to future collaborations! #GivesEnergy - Redmond Plomp (Head of Planning)

# Highlighted project: Gigantic wind turbine transporter

We have been a leader in our industry for more than 30 years. As a result, we have been able to paint many machines for clients from all over the world in recent years! Below you can see one of our recent projects:

The process video of the gigantic wind turbine transporter can now be seen on our social media channels and website!

We recently painted this gigantic wind turbine transporter for our Scottish client McFadyens Transport Ltd. To breathe new life into this impressive machine, we carefully disassembled the 2 lift adapters, the 4-axle Jeep dolly and the 7-axle trailing dolly, and spray-painted each part individually. We also disassembled all wheels, thoroughly blasted them and repainted them. The result: the wind turbine transporter now shines in a striking red, while the cylinders have been given a cool shade of grey and the wheels shine in silver.

Our professionals have ensured that the gigantic wind turbine transporter has a fresh appearance again and can again perform work for years to come.

The photos give an impression of our work. The last photo was taken upon delivery, the moment the gigantic wind turbine transporter was ready to leave for our client McFadyens Transport Ltd.

## Transport service

If desired, we can take care of the transport of the crane. We arrange both international transport and transport from the port for you. For example, for G. O'Brien Crane Hire Ltd. (Ireland) we arranged pick-up of their LTM 1230-5 from the port of Rotterdam and we put the crane back on the boat to Ireland upon delivery. Would you like to know more about our transport service? Please do not hesitate to contact us!
